GENERAL REGULATIONS

Caliber

There are no caliber limitations. It is prohibited to use any poisonous, explosive, or deleterious substances on or in any arrowheads, bullet, or projectile. It is prohibited to use a shotgun to shoot deer except with loads of 0 buck, 00 buck or single ball loads.

Checking Stations

Hunters and fishermen must stop at checking stations on their routes of travel to and from hunting and fishing areas. Vital hunting and harvest information is gathered at checking stations.

Evidence of Sex and Species

Hunters taking big game must leave evidence of sex and species attached to the carcass. In addition, hunters taking elk or deer during antlered only seasons must be able to show on demand for inspection the complete head and antlers.

Evidence of sex must be left attached to the carcass of a big game animal until the carcass is processed (cut up). The game tag must remain with the processed meat.

The evidence of sex requirement is met when the head, horns or antlers are left naturally attached to the whole carcass or a front quarter. If the head is removed, some other external evidence of sex (either scrotum, penis, testicles for male animals, or udder for female animals) must remain.

Game Limits

It is unlawful for any person to kill more than one game animal of any one species in any one license year, unless otherwise specified.

Game Tags

Immediately after killing your game animal, cut out the proper month and day from the license and attach to the carcass so it remains secure and visible at all times.

Hunting Hours

Authorized periods shall be from one-half (½) hour before sunrise until one-half (½) hour after sunset each day of the hunting season. (See sunrise-sunset tables).

Hunting Districts

The state has been divided into legally described hunting districts designated by numbers, wherein the limits, season dates, species and sex of game animals which may be taken are specified. These districts are as shown on the enclosed maps for Deer, Elk, Bear, Mountain Lion, Antelope, Moose, Bighorn Sheep and Mountain Goat Hunting Regulations and are more particularly described in the document entitled "Legal Descriptions." Legal descriptions are available at Fish, Wildlife and Parks offices and at agents that sell hunting and fishing licenses.

Marked Animals

Hunters may encounter big game animals that have radio collars, neck bands or markers. It is legal to shoot such animals, but markers and radios must be returned to the Department of Fish, Wildlife and Parks.

Vehicle Travel Restrictions

Hunters must not drive off established roads or trails except to get big game carcasses that would otherwise be difficult to retrieve, in which case a motor-driven vehicle may be used to retrieve the carcasses, except in areas where more restrictive regulations apply or where the landowner has not granted such permission. Vehicles used to retrieve game must take the shortest possible routes to and from established roads or trails. On federal lands contact the nearest agency office. Certain roads on public lands are closed to vehicles. For current status of closures, contact the appropriate agency (Bureau of Land Management, U.S. Forest Service, Bureau of Reclamation, U.S. Fish and Wildlife Service).

Permission to Hunt

Montana law requires that big game hunters must have obtained permission of the landowners, lessees or their agents before hunting big game animals on private property.

Clothing Color

With the exception of archers during special archery seasons, it shall be unlawful for any person to hunt big game animals or to accompany any hunter as an outfitter or guide without wearing exterior garments above the waist totaling not less than four hundred (400) square inches of hunter orange material, visible at all times while hunting.

Littering

A person convicted of littering while hunting, fishing, camping, or trapping shall forfeit his license or privileges to hunt, fish, camp or trap within Montana for a period of one year.

Importation of Horses and Mules

The Montana Department of Livestock requires an animal health permit prior to entry. For information call 406/444-2043. A brand inspection is required within Montana.

Montana state law prohibits the waste of any part of any game animal, game bird, or game fish suitable for food. Following are parts "suitable for food."

KINDS OF DEER LICENSES

1. **Deer "A":** Resident hunters may purchase one deer **A** license during a license year. An **A** license is included in the resident sportsman's license and the nonresident $300.00 combination license. These **A** licenses authorize hunting in all deer districts open to general hunting unless regulations specify otherwise.

2. There are also a limited number of nonresident deer **A** licenses available through a drawing to nonresidents who **do not** possess a $300.00 combination license. These licenses will be valid only in specific districts and for specified species and sex of deer.

3. Resident and nonresident B licenses (valid in specified hunting districts) are available through drawings in limited numbers.

Hunters need not hold an **A** license before applying for a **B** license.

4. **Over-the-Counter—B Licenses for antlerless whitetailed deer only:** These licenses may be purchased beginning late July from license agents within the 400, 600 and 700 series districts, and from Fish, Wildlife and Parks Headquarters and other large license dealers in Montana. No person may purchase more than one over-the-counter **B** license.

These licenses will be valid in 400, 600 and 700 series districts with the following restrictions or limitations:

Exceptions

Hunting district 400 - licenses not valid on the Brinkman Game Preserve.

Hunting district 422 - licenses not valid on the Augusta Game Preserve.

Regardless of where you purchase one of the above Antlerless Whitetail Deer "B" Licenses, the license holder has the option to use it in 400, 600, and 700 series districts subject to the restrictions described above. The license holder is not limited to the administrative region where the license was purchased.

SPECIAL ELK ARCHERY SEASON

Only long bows and arrows (including compound bows, but not crossbows) may be used for hunting or killing elk during special archery seasons. An archery stamp in addition to the proper hunting license is required of all hunters during special archery seasons. Licensed hunters may use archery equipment **without** archery stamps during regular gun seasons unless specified otherwise under district hunting regulations.

It shall be unlawful for archers to use any livestock to kill, take, attempt to take, or harass elk during the elk archery season. This shall not prohibit the use of livestock to get to the hunting area or to remove downed game animals.

Deer and elk hunting districts other than exceptions described below open to archery hunting only for either sex elk. Sept. 7, 1985 through Oct. 12, 1985.

Exceptions

1. Hunting Districts 150, 151 and 280 open from September 7 through September 14, 1985.
2. Hunting District 316 closed to archery hunting prior to September 15, 1985.
3. Hunting District 324 closed to archery hunting prior to October 27, 1985.
4. Elk archery hunting in Districts 631, 632, and a portion of 630 will be by special permit only. Persons must apply for these permits on or before June 1, 1985 as one of their choices for a special elk permit on regular application forms. Three hundred fifty (350) of these permits will be issued and are valid in Hunting Districts 631, 632 and a portion of 630. See District 631-05, Special Elk.
5. Persons hunting elk with bow and arrow in Districts 410, 621, 622, 623, and 700 must obtain free archery permits available from regional, Helena Fish, Wildlife and Parks office, and Charles M. Russell National Wildlife Refuge beginning July 1, 1985. None of these permits are valid in Hunting Districts 631, 632, and a portion of 630.

THERE SHALL BE NO SPECIAL ELK ARCHERY SEASON IN THE FOLLOWING DISTRICTS: 260, 316, 324, 400, 402, 403, 404, 405, 406, 417, 419, 426, 444, 450, 471, 500, 501, 502, 503, 511, 530, 570, 571, 572, 573, 574, 591, 592, 600, 610, 611, 612, 620, 629, 633, 640, 641, 650, 670, 680, 690, 691, and districts beginning with the digit 7 exception of district 700. See Districts 630, 631 and 632 in exceptions above.

ELK ARCHERY DAMAGE HUNTS

If elk damage situations warrant, a special elk archery hunt in portions of Districts 622, 630, 631 and 632 may be held prior to the primary elk archery season. Interested applicants should send their names, mailing addresses and phone numbers to the Department of Fish, Wildlife and Parks, Route 1-4210, Glasgow, MT 59230 prior to June 1, 1985. Names will be drawn and permits, listing dates of the hunt, sent to successful applicants.

SPECIAL ELK REGULATIONS: Use this section when making application for elk permits issued through drawings.

NONRESIDENT ELK (\$300.00 COMBINATION LICENSES)

There is no nonresident license other than the \$300.00 license that authorizes elk hunting. Nonresidents must first hold a \$300.00 combination license in order to apply for a special elk permit.

SPECIAL ELK PERMIT PARTY APPLICATIONS

Party applications for special elk permits during late seasons only in Districts 310 and 313. See drawing application form for details.

HUNTING TIME PERIODS

In some districts, special permits are valid for only a few specified days of the overall season. The purpose is to prevent congestion by limiting the number of persons hunting in an area at one time.

Assignment of time periods is determined by the order in which the applicants are computer-picked during drawings. Once assigned, time periods cannot be changed nor exchanged.

ELK DAMAGE HUNTS

If it becomes necessary to have late elk hunts to alleviate damage, hunters who applied earlier in the year for special elk permits, but were unsuccessful in drawings, will be given first opportunity to hunt.

If there were no previous permit drawings for the district where the late hunt is to be held, then hunters who applied for elk permits in other districts within the administrative region will be given first opportunity to hunt.

PERMITS VALID IN PORTION OF HUNTING DISTRICT

In some hunting districts special permits are valid in only a portion of the hunting district.

Descriptions and/or maps of the areas will be provided to successful applicants in those hunting districts.

UPON NOTICE, ELK PERMITS IN ANY HUNTING DISTRICT MAY BE VALIDATED BEFORE GENERAL SEASON OPENING DATE FOR DAMAGE SEASONS.

IF A HUNTING DISTRICT IS IMMEDIATELY FOLLOWED BY A TWO DIGIT NUMBER (EXAMPLE: 216-01) YOU MUST INCLUDE ALL NUMBERS WHEN MAKING APPLICATION FOR ELK PERMITS.

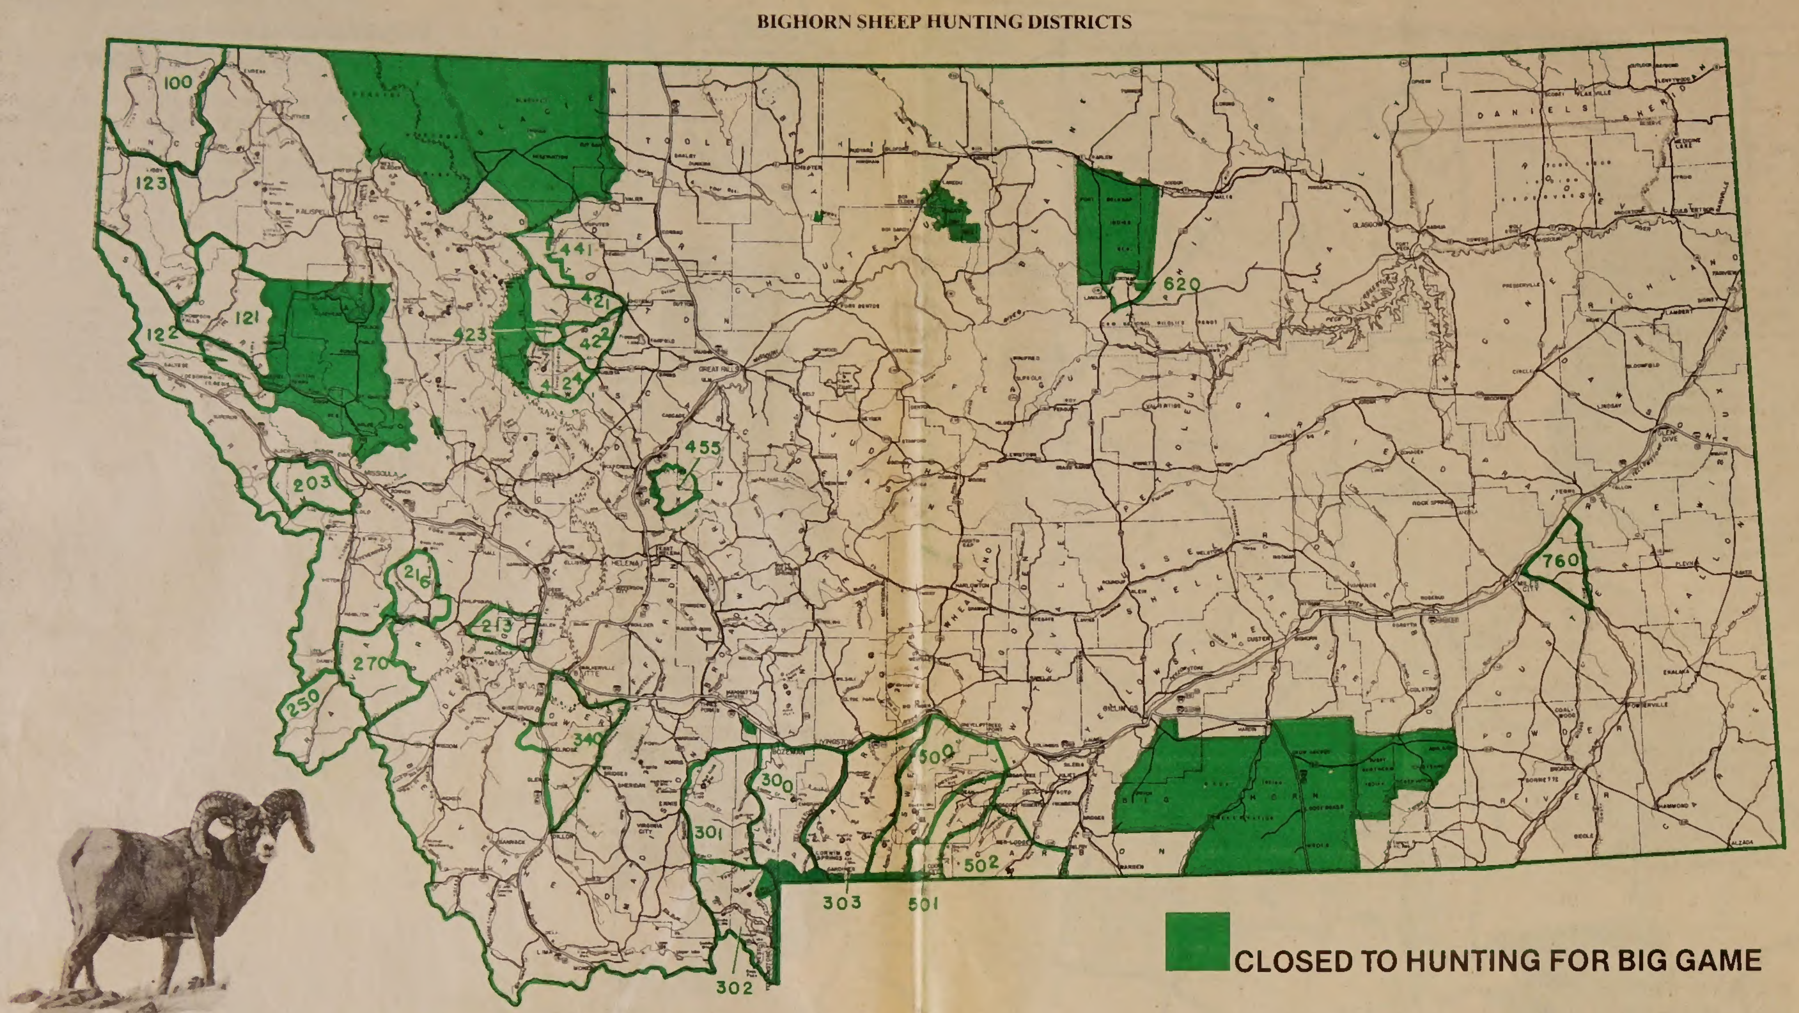
BIGHORN SHEEP HUNTING DISTRICTS



🟩 CLOSED TO HUNTING FOR BIG GAME

BIG HORN SHEEP

1. **Licenses Issued Through Drawings:** All licenses issued through drawings will be valid for the season dates specified on the licenses.

2. **No-Drawing Licenses (Unlimited):** Hunters may purchase a bighorn sheep license in one of a number of districts without entering drawings if application is made to the Fish, Wildlife and Parks office in Helena no later than August 31,1985. Each of these sheep hunting districts is assigned a harvest quota. When the quota is reached or approached (whether the kills are by hunters or otherwise), the sheep season in that district is closed on 48 hours' notice (12 hours'notice in district 502). This could possibly be within a few days after season opening in some districts. No-drawings (unlimited) licenses are available for hunting districts 300, 301, 302, 303, 500, 501 and 502.

3. **Limit:** One bighorn sheep subject to the sex and age specifications in the hunting regulations. Hunters taking bighorn sheep must on demand physically go back to the kill site for inspection and on demand show the complete head.

4. Anyone taking a sheep with a license valid for a "legal ram" must not alter the head and horns as to make determination of legality uncertain.

5. Anyone killing a bighorn ram must personally present the complete head and cape within 48 hours to any Fish, Wildlife and Parks office, Game Warden, or designated employee in the administrative region where the bighorn ram sheep was killed. At this time, a transportation permit will be issued.

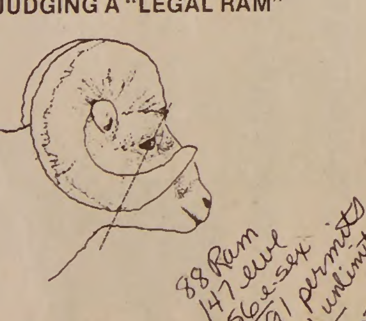
The bighorn ram sheep head must be plugged or pinned at any Fish, Wildlife and Parks office within **ten** days after kill.

It is illegal to possess a sheep head picked up in the wild.

A listing of designated personnel and phone numbers will be provided to all bighorn sheep license holders. If a reporting hunter is unable to contact any of the offices, wardens, or designated personnel, he may call the toll-free number 800-332-6117.

6. **Nonresident Applicants:** When applying for sheep **drawings**, nonresidents should apply in the following districts: 100-01, 100-02, 121-01, 121-02, 121-03, 122-02, 123-01,123-02, 213-01, 216-01, 216-02, 216-03, 250, 270-01, 270-02, 340-02, 423, 424, 441, 455. Nonresidents have no opportunity to draw a license in districts not listed above.

JUDGING A "LEGAL RAM"



88 Ram
147 ewe
56 e-sex
291 permits
21 unlimited
312 Total

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the sheep is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See illustration above.

Determination of a legal ram should be made from a broadside view of the head.

"UNLIMITED" LICENSES

The following licenses may be purchased no later than August 31 without going through drawings. These seasons will close on 48 hours' notice (12 hours' notice in District 502) if quotas are reached or approached (whether the kills are by hunters or otherwise). Any ram killed by a hunter will be counted against the quota.

Closures could possibly be within a few days after opening in **some districts**. To inquire on current status of harvest during the hunting season, please contact the respective Fish, Wildlife and Parks office listed on page 3 of the Big Game Regulations.
